

Transport, Logistics and Sustainable Development

LOGISTIQUA is a scientific event that brings together researchers and practitioners who are interested and work on different aspects of logistics and supply chain. It provides a forum for exchanges on practices, tools, models and experiences to advance research and open up new opportunities for work.

For its 13th edition, the LOGISTIQUA conference will take place at the Higher School of Technology of the Sidi Mohamed Ben Abdellah University in Fez.

In addition to the conference's traditional research areas, this edition is dedicated to sustainable development. First of all, it seeks to understand the different forms in which transport and logistics activities impact the planet and society. Secondly, it wishes to provide some answers as to the economic, social, technological and legal prospects of a sustainable Supply Chain.

Indicative topics

- Sustainable Transportation
- Artificial intelligence, Big data and Sustainable Transport
- Sustainable Urban Logistics
- Modeling, simulation and optimization of Sustainable Transport
- Transport infrastructure and sustainability
- Freight transport and SD
- Environmental and social impacts of transport
- Vehicle energy and sustainability
- Sustainable development & Public transport
- Territorial logistics and sustainable development
- Logistics & Organization
- Hospital logistics
- Sustainable Supply Chain Management (SCM)
- Logistics Processus

Important dates

Submission of the full article
~~15/03/2020~~ – **31-03-2020**

Notification of final acceptance
15/04/2020

Submission of the final version and registration
01/05/2020

Paper submission

Articles will be written in French or English. They must comply with the IEEE format (IEEE Template).

To be submitted exclusively on: <https://easychair.org>

Submission link: <https://easychair.org/conferences/?conf=logistiqua2020>

Important

- Authors may also submit the full article (long paper) of 5 to 6 pages.
- All submitted papers will be subject to double-blind peer review.
- Accepted and recorded papers (in English) will be included in the conference proceedings and will be submitted for possible publication in **IEEE Xplore**[®] and proposed to Scopus  for indexing.
